#### OSTALO - NAGRADE, POČASTI

<b>Bojan Baća</b>	<b>Bojan Baća:</b> <i>The 2022 Routledge Area Studies Interdisciplinarity Award:</i> “Dr. Baća’s impressive research project is original and innovative, making a significant contribution to understanding the complexity and diversity of civil society in postsocialist countries in Central and Eastern Europe. The strong regional focus of Dr. Baća’s research project challenges a static view of the region, providing a deeper understanding of political action and democracy in the postsocialist arena. Demonstrating a serious engagement with, and fusion of, political science and social movement studies, this interdisciplinary project engages with a broad range of sub-disciplines including political sociology, anthropology, and political geography. The research has the potential to broaden our understanding of what is actually happening in terms of voluntary action in the regions concerned and may lead to a more analytically nuanced and innovative understanding of public life in postcommunist polities. The conceptual framework and the tools provided to refine current research are both accomplished and insightful, with the findings relevant for a variety of social scientists” (Routledge, Taylor & Francis).
<b>Bojan Baća</b>	<i>Nagrada “Zagorka Golubović” za 2022. godinu:</i> “Zaključak komisije je da rad predstavlja sintezu teorijskih i empirijskih nalaza o civilnom društvu, društvenim pokretima, protesnim politikama, aktivističkom građanstvu i nekonvencionalnoj političkoj participaciji u Centralnoj i Istočnoj Evropi, kao i kritičku refleksiju koja nudi novi analitički okvir za prevazilaženje teorijskih, konceptualnih i empirijskih dilema i problema prisutnih u postojećoj literaturi, prevashodno u pogledu boljeg identifikovanja, opisivanja i razumevanja empirijske stvarnosti društvenog angažmana u postsocijalističkim zemljama. Rad ukazuje na

	neophodnost odmicanja od apstraktnog, univerzalističkog i normativnog pristupa ka ukorenjenom, kontekstualnom i kritičkom shvatanju postsocijalističkih civilnih društava. Kao takav, on podstiče na promišljanje i ohrabruje na delovanje postavljanjem u fokus protesnih praksi koje izazivaju dominantne narative, pristupe i teorije. Svojim visokim naučnim kvalitetom, orijentacijom ka angažovanom mišljenju i tretiranjem teme od širokog društvenog značaja, rad Bojana Baće na najbolji mogući način odgovara na propozicije konkursa za nagradu 'Zagorka Golubović'" (Institut za filozofiju i društvenu teoriju, Univerzitet u Beogradu).
